IDEATION PHASE — ARTIFACT 01

# Brainstorming & Idea Prioritization

The Luminary Heritage Resort — Next-Gen Property Management System

| PROJECT | FACILITATOR | PHASE | DATE |
|---|---|---|---|
| **Luminary PMS** | **Product Strategy Team** | **Ideation & Scope** | **October 2026** |

## 1. BRAINSTORMING CONTEXT & KEY FOCUS AREAS

To deliver a world-class luxury resort experience while maintaining operational excellence across 180 high-end suites and villas, a multi-departmental ideation session was conducted. The goal was to identify critical friction points in current operations and conceptualize technological innovations for the new Property Management System.

### Guest Experience Innovations

- Mobile self check-in via digital key issuance
- Hyper-personalized guest preference profiles (pillow type, room temperature)
- In-villa interactive concierge & dining ordering
- Automated luxury experiential package recommendations

### Operational Efficiency Ideas

- IoT-based automated housekeeping dispatch & status tracking
- AI-driven dynamic room pricing & yield management
- Centralized POS integration across spa, fine dining, and sports
- Automated guest billing with instant multi-currency splitting

## 2. IMPACT VS. EFFORT PRIORITIZATION MATRIX

Brainstormed ideas were evaluated against business impact and technical effort to establish clear release phases.

| | High Impact | Low Impact |
|---|---|---|
| **Low Effort (Quick Wins)** | **PRIORITY 1: Quick Wins**<br>Mobile Self Check-In<br>Centralized Guest Profiles<br>Basic POS Sync | **PRIORITY 3: Fill-ins**<br>Digital Feedback Forms<br>Automated Email Receipts |
| **High Effort (Strategic)** | **PRIORITY 2: Strategic Investments**<br>IoT Housekeeping Tracking<br>AI Dynamic Pricing Engine<br>Unified Loyalty & Spa Engine | **PRIORITY 4: Reconsider / Defer**<br>VR Room Tour Kiosks<br>Robotic Luggage Delivery |

## 3. PRIORITIZED FEATURE ROADMAP & SCORING

Features were scored using the RICE framework (Reach, Impact, Confidence, Effort) to determine minimum viable product (MVP) inclusion.

| Feature Candidate | Target User | Reach (1-10) | Impact (1-5) | Effort (1-5) | RICE Score | Status |
|---|---|---|---|---|---|---|
| **Mobile Keyless Check-in** | Guests | 10 | 4.5 | 2.0 | 22.5 | MVP Phase 1 |
| **Central Guest CRM & Preferences** | Front Desk / VIP Concierge | 9 | 5.0 | 2.5 | 18.0 | MVP Phase 1 |
| **IoT Housekeeping Auto-Dispatch** | Housekeeping Staff | 8 | 4.0 | 3.0 | 10.6 | Phase 2 |
| **AI Dynamic Revenue Optimization** | Revenue Manager | 6 | 5.0 | 4.0 | 7.5 | Phase 2 |
| **Robotic Luggage Transport** | Porters / Guests | 3 | 2.0 | 5.0 | 1.2 | Rejected |

## 4. STRATEGIC RATIONALE & EXPECTED OUTCOMES

By focusing initial deployment on **Mobile Keyless Check-in** and **Centralized Guest Profiles**, Luminary Heritage Resort aims to cut front-desk wait times by 65% while increasing guest satisfaction scores by 25%. Secondary focus will shift toward operational automation in Phase 2 to optimize labor costs.
